## Simple resume templates

A clean and timeless presentation that stands out in almost any situation.

Simple or basic doesn't have to be a bad thing. In fact, sometimes a simple resume template is the best approach for a variety of positions. Our simple styles keep the focus on your accomplishments, experience, education, and everything in between to write your resume. After all, shouldn't you be the star of the show?

Expert Tip

Just because your resume template is simple doesn't mean your resume has to be. In general, it's best to leave off "obvious" or "expected" skills like MS Word or internet research. Same goes with unrelated, outdated or irrelevant experience.

Simple templates are versatile and work well across a variety of fields and job titles. In fact, some hiring managers prefer these stripped-down designs because it allows them to really evaluate the candidate's qualifications. ## When to pick a basic or simple resume template

Basic or Simple templates are best for situations where your experience needs to speak for itself. Candidates applying for positions in transport and logistics, maintenance and repair, retail or food service can all benefit from simple resume templates. A basic or simple template sends the message that you're a clean and organized candidate who's ready to get the job done.

job-winning simple resume templates

While professions involving physical activity and labor can benefit from a simple layout, these templates are also great for students and those applying to entry-level positions. Before you go bold with loud colors and untraditional fonts, you may want to test the application pool waters with a simple template that keeps the focus on your experience.

To make the most out of your basic template, make sure to keep the writing clean and professional. Since you don't have many pictures or colors to catch a recruiter's eye, you'll want to use strong action verbs that accurately capture your accomplishments. As always, proofreading your resume for grammar and spelling errors is a must.
